INTRODUCTION

The CDM-700 Conveyor transports media from the Printer and stacks it. As the first piece of stock exits the Printer, the motor-driven Conveyor Tapes under the Stacker Wheels move it. The next piece of stock exits the Printer, overlaps the preceding piece, and is moved along the Conveyor. After clearing the Stacker Wheels, the stock can be unloaded by hand without having to stop the Printer.

SPECIFICATIONS*

Power Requirements:	115 VAC, 60 Hz, 9.0 AMP
Optional Availability:	220 VAC, 50/60 Hz, 0.5 AMP
Motor Circuit Breaker:	1 AMP
Fuse:	0.5 AMP
Speed Of Tapes:	0" - 250 feet per minute (variable)
Dimensions:	Width: 15" (38.1 cm) Length: 34.5" (87.6 cm) Height: Table Top Weight: 33 lbs. (15 kg)

* MANUFACTURER RESERVES THE RIGHT TO CHANGE SPECIFICATIONS WITHOUT WRITTEN NOTICE.

SAFETY PRECAUTIONS

THIS EQUIPMENT PRESENTS NO PROBLEM WHEN USED PROPERLY. OBSERVE SAFETY MEASURES WHEN OPERATING THE CONVEYOR:

READ THIS MANUAL CAREFULLY AND FOLLOW RECOMMENDED PROCEDURES.

- KEEP HANDS, HAIR, AND CLOTHING CLEAR OF ROLLERS, TAPES, AND OTHER MOVING PARTS.
- ALWAYS TURN CONVEYOR OFF BEFORE ADJUSTING OR CLEANING.
- DISCONNECT POWER CORD WHEN MAKING ANY ADJUSTMENTS OR PERFORMING ANY MAINTENANCE NOT COVERED IN THIS MANUAL.

WARNING!

**ONLY CONNECT CONVEYOR TO A PROPERLY GROUNDED OUTLET!
FAILURE TO DO SO CREATES RISK OF ELECTRICAL SHOCK!**

USER GUIDE

Assembling Conveyor

1. Unpack Conveyor. **Do not discard carton until Conveyor is assembled.**
2. Attach Receiving Tray to Conveyor with two screws provided.

Positioning Conveyor

1. Place Conveyor on the same sturdy table or workbench next to the Printer as shown.
2. Center Conveyor relative to Printer's exit.

Operating Conveyor

Plug Conveyor into a properly grounded wall outlet using power cord supplied.

CAUTION
CONVEYOR IS DESIGNED TO BE PLUGGED INTO A GROUNDED OUTLET. FOR YOUR SAFETY, DO NOT REMOVE GROUND PIN FROM LINE CORD.

USER GUIDE

1. Turn Conveyor and Printer ON.
2. Feed stock through Printer and observe the way it is received by the Conveyor.

3. Loosen Locking Knob [A] and adjust Stacker Wheels so lead edge of media just touches Stacking Rollers as it exits the Printer.
4. Adjust Speed Control to set the amount of overlap between the pieces. (*For less overlap turn Speed Control clockwise, for more overlap turn Speed Control counterclockwise.*)

Reverse Operation

Conveyor is designed to run from right to left. It can also operate from left to right. To switch operation direction, first move Guide Roller Assembly and Stacking Tray to opposite sides of the Conveyor. Then switch the Reversing Switch (*located under Conveyor*) to the reverse operating position.

Troubleshooting

If Conveyor fails to run, check for jammed paper between Tapes and Roller. Also, check Fuse and Motor Circuit Breaker and replace or reset if necessary. Fuse Holders and Circuit Breaker located on rear of Conveyor.

WARNING!

**DISCONNECT POWER CORD WHEN CHECKING OR REPLACING FUSE!
ALWAYS REPLACE FUSE WITH THE SAME TYPE.
FAILURE TO DO SO MAY DAMAGE ELECTRONIC CIRCUIT BOARD.**

USER GUIDE

Optional DTM-255/DTM-250 Conveyor Drop Tray Installation

DTM-255 Drop Tray is for Left-to-Right Operation. DTM-250 Drop Tray is for Right-to-Left Operation. Assemble and install Conveyor Drop Tray on exit end of Conveyor:

1. Remove two screws attaching Stacking Tray to Conveyor and remove Tray.
2. Remove four screws [A] that mount Front Cover Plate to Conveyor.
DO NOT remove Front Cover Plate.

3. While holding Front Cover Plate in place, install Drop Tray Support Bracket [B] using four screws removed in **Step 2**.
4. Install Media Guide Roller Assembly using four screws supplied [C]. Mount Media Guide Roller Assembly as shown with Rollers resting on Exit Roller of Conveyor.

5. Install Tray Base on Drop Tray Support Bracket.
Tray adjusts up and down to allow stacking more or less media.
6. Remove knobs from Guides.
Assemble Guides to Tray Base as shown. Largest Guide is the Rear Stop Guide. Second largest Guide is installed on non-operator's side of Conveyor and smallest Guide is installed on operator's side as shown.

USER GUIDE

Optional 57E-600-10 Conveyor Leg Kit Installation (for Use with M-Series Printers)

Install Conveyor Legs on the Conveyor to allow proper alignment with M-Series Printers.

CONTENTS OF KIT:

1. Conveyor Legs (2)
2. Screws (4)

INSTALL CONVEYOR LEGS:

1. Remove (4) Rubber Feet from bottom of Conveyor.
2. Attach Conveyor Legs across the bottom front and rear of Conveyor using Rubber Foot holes [A] and four screws included with Kit.
3. Reattach Rubber Feet to Conveyor Legs using predrilled holes [B] provided.

USER GUIDE

Optional DK-700 Dryer Kit

Dryer Kit Includes: Front Exit Roller Assembly, Guide Roller Support, Front Roller Support, Rear Roller Support, 2 Dryer Support Shafts, 8 mounting screws

1. Before installing DK-700 Dryer Kit, remove these parts from the CDM-700 Conveyor.
 - A. Stacking Tray [A] (2 screws).
 - B. Guide Assembly [B] (4 screws).
Remove Operator's Side Bracket first, then the Rear Support Bracket.

2. Install new Rear Roller Support [C] using two screws (as shown).

3. Hook Guide Roller Support over the shaft on Rear Roller Support [1]. Install Front Roller Support using two screws [2] (as shown).

4. Install Front Exit Roller Assembly by attaching mounting brackets to Conveyor Frame (as shown) using two screws on each side [3].

USER GUIDE

5. Remove two Levers [4] and Bearing Washers [5] from two Dryer Support Shafts [6]. Install two Shaft Assemblies into holes provided in Dryer (*as shown*). Reinstall Levers [4] and Bearing Washers [5] on Shafts.

NOTE: When installing the two Levers [4], make sure the cams on the opposite end of the shaft are in the same position as the cams on the Levers.

6. Dryer Assembly can now be placed in Support Brackets. Make sure Bearing Washers are between the Support Brackets and the cams (*as shown*).

NOTE: Bearing Washers should go between Support Brackets and cams.

7. Plug cord supplied with Dryer into Dryer receptacle, then into receptacle labeled "Dryer" on the Conveyor. Then plug the Conveyor into the wall outlet.

8. To operate the Dryer, set the two Levers so media can pass under the Dryer without interference. Then turn Dryer power switch ON. Turn Conveyor ON.

Dryer and Guide Rollers can be adjusted from side to side (*by sliding them on Shaft Assemblies*) to accommodate varying media sizes and print positioning.

NOTE: Dryer will not operate if Conveyor is not turned ON.

CAUTION

**DO NOT OPERATE DRYER IF BELTS ON CONVEYOR ARE NOT TURNING.
DO NOT BLOCK CONVEYOR EXIT WHEN USING DRYER.**
